About Us

ACE Peripherals Private Limited is established since 2006 to Value-Add and Completing Information Technology. ACE Peripherals Pte Ltd represents a set of leading brand of Input/Output Peripherals Hardware and Software from WorldWide. With an extensive network in ASIA and EMEA channel partners, we are offering an extensive range of Computer Peripherals. Our business operations are based in Singapore (Headquarter) and our regional partnership presences are in Australia, Cambodia, Indonesia, Myanmar, Pakistan, Philippines, Thailand and Vietnam.

Serving the ASIA and EMEA region, our forte is in selecting and integrating the Most Value-Added Input/Output Peripherals Hardware and Software to meet changing business dynamics.

We are good listeners. Our professional sales consultants are there to assist and guide you from project beginning to end. It is our desire to establish relationships with our customers as opposed to just "making the sale." With our commitment to drive business values to our partners, ACE Peripherals Pte Ltd provides unparalleled levels of channel sales and marketing support and constantly engages the WorldWide's Input/Output Peripherals Hardware and Software Partners in technology arena.

From our central distribution facility in Singapore and vendor facilities worldwide, we offer competitive shipping to any part of the ASIA, EMEA and to international destinations as well. And, we excel in customizing your product selection to your precise specifications. We strive to create new and innovative product integration to provide excellent solutions to our end users. ACE Peripherals Pte Ltd strongly believe in earning mutual trust from partners by delivering what we promise, sharing knowledge, continuously acquire new knowledge to create new solutions, be connected with partners to share ideas and enjoy our friendship and cultures.
