Environmentally-Friendly

The DocuPrint C2255 is manufactured using the Fuji Xerox trend-setting "Biomass-Plastic". The Biomass-Plastic contains a specified minimum quantity of organic resources like plants. And in this case, the organic resource is corn. In addition, these features and practices can be found in the DocuPrint C2255:

- · Energy-saving sleep mode of 3W or less
- · Lead-free and halogen-free construction
- International Energy Star certified
- Reduced CO₂ emissions of up to 35 % in the manufacturing of EA-HG Toner
- Reduced CO₂ emissions of up to 16% in the manufacturing of Biomass-Plastic

DocuPrint C2250 (the Japanese version of

DocuPrint C2255) won the 4th Eco-Products Awards in 2007

Fuji Xerox wins the Energy Conservation Prize for nine consecutive years in Japan

Configurations To Suit You

(560-sheet cassette and 100-sheet bypass tray)*

Single Tray Module

(560-sheet cassette and 100-sheet bypass tray ♣ 560-sheet tray)*

Standard Configuration Cabinet

(560-sheet cassette and 100-sheet bypass tray + 560-sheet tray + Cabinet)

Standard Configuration + 3 Tray Module

(560-sheet cassette and 100-sheet bypass tray ♣ 560-sheet tray x 3)*

Specifications of DocuPrint C2255

		A4 Colour and B&W	A3 Colour and B&W	
Print Speed	Simplex	Up to 25ppm	Up to 14ppm	
	Duplex*	Up to 20ppm	Up to 9ppm	
Print Resolution	600 x 600dpi; 1,200 x 1,200dpi; 1,200 x 2,400dpi			
First-page-out Time	Colour: <8.3 seconds: Black & White: <6.3 seconds			
Warm-up Time	<30 seconds			
Memory (std / max)	256MB / 1.5GB (512MB + 1GB)			
Processor		677MHz		
PDL	PCL XL, PCLSc, FX-PDF, XPS, HPGL, HPGL2, Adobe® PostScript® 3°			
	TIFF, ESC / P-K			
HDD (optional)	40GB			
Connectivity	USB 2.0 x	2 Ports (Type B), Ethernet		
	Parallel Port (optional)			
Operating System	Windows® 2000 / XP (32 / 64-bit) / Vista® (32 / 64-bit) /			
	Server® 2003 (32 / 64-bit), Mac OS 8.6-9.2.2 / OS X (10.3.9-10.4.10

DocuPrint

DocuPrint C2255 **Color Printer** Another Dimension in Color Printing

Self-Scanning LED Print technology utilises a print head that creates an image on the print drum using LEDs (Light Emitting Diodes) as the light source. The light from the LEDs are directed through a lens array which forms the image document on the drum. However, the DocuPrint C2255 has five features, combining Advanced Self-Scanning LED Print Technology and Superior Imaging Technology, to ensure its high quality 1.200 x 2.400dpi output consistently:

(i) 1,200dpi Self-Scanning LED chips

This assures high quality printing with 14,592 emitting points comprising of 256 dots x 57 chips.

(ii) Newly designed lens

its performance.

The optically precise lenses produce highly accurate images on the drum.

(iii) Full-featured ASIC Driver

The small, intelligent ASIC driver assures precise control of the Self-Scanning LED chips.

(iv) Image enhancement processing

Images are scanned in two directions (rather than one) on a finer matrix than with conventional technology. This produces smoothe

(v) MACS (Micro Accurate Control Screen) digital screening

It uses Fuji Xerox HQ digital screen technology (normally found only in high-end printers) which controls pixel production based on image density. This results in smooth gradation and excellent highlight

In addition, other benefits of the DocuPrint C2255 over conventional printers are that there are fewer moving parts for better efficiency. It is compact with shorter optical path and smaller light emitting unit. It is also silent, more reliable and offer lower power consumption

Cutting Edge Security

The DocuPrint C2255 ensures that your confidential documents remain confidential. Its built-in and optional security features mean you can always print with total peace of mind. These include:

- IPv6+IPSec, IEEE802.1X authentication* and SNMPv3 compatible for TCP / IP
- IPP+SSL security print
- · Hard disk overwrite
- · Print user control
- Hidden Universally Unique Identifier (UUID) mark to detect copied
- Secure Watermark to protect hard copy¹

Out-of-Box Capability for Enterprise Applications

- Customisable ApeosWare device type for duplex printing and input / output trays*
- · PostScript and PCL barcode printing
- Unicode printing*2
- Citrix printing via Print Utility for Citrix XenApp*1

· Access all printer features (i.e. duplex printing, N-Up. tray select, etc.)

High On Speed

- 667MHz high-speed CPU
 256MB RAM expandable to 1.5GB
 Shortened paper path via tandem +

High On Resolution . 1,200 x 2,400dpi super high quality printing

- Accurate highlight coverage improves prin-stability in different environments

Easy-To-Use

- Bright LCD control panel can display in four
- languages
 Intuitive easy operation
- Automatically switches to black & white
- when colour toner runs out
- . Light-weight paper tray opens easil
