Clever features designed for reliable, cost-efficient printing

The Fuji Xerox DocuPrint P115 w/M115 w are designed as an affordable entry level print solution, offering high quality personal printing combining reliability with the advantage of wireless connectivity.

Productivity and reliability

- **Speed and quality.** Fast, excellent results with up to 2400 x 600 dpi resolution and a printing speed of up to 20 ppm.
- **Print faster.** Ready to go with quick warm-up time. First page out of just 10 seconds or less.
Affordable, efficient printing

- **Save toner – save cost.** Toner save mode extends the life of the toner cartridge by varying the density of toner that's printed on a page.
- **Use less paper and toner.** The built-in N-up print feature enables you to save on paper and toner by printing multiple pages on a single sheet of paper.
Reduce paper jams with clever features

- **Rubber dual paper feed rollers.** Made from unique rubber material that prevents dust. The rollers also improve paper feed with accurate picking, one sheet of paper at a time.
- **Shorter paper path and longer paper guides.** Reduces the likelihood of paper jams.

Clever features designed to reduce paper jams

Rubber dual paper feed rollers. Improves paper feed by accurately picking up one sheet of paper at a time.

Shorter paper path. Reduces the likelihood of paper jams.

Longer paper guides. Minimise paper skew, which reduces the chance of paper-jams.
