Colour S-LED Printer

Print quality so vibrant,
it captures everyone's attention

High resolution S-LED (Self–Scanning Light Emitting Diode) technology produces brilliant images

For small and growing businesses and home-office entrepreneurs who demand high quality colour printing, but may be tight on space, Fuji Xerox now has the perfect solution. A technologically superior and highly affordable printer that provides stunning, high-quality colour printouts yet fits right on your desk. This is an entry-level printing solution that is loaded with advanced technology you could previously only get from large and expensive standalone high-end printers.

Cost and energy saving

Fuji Xerox's award-winning technologies ensure that you enjoy exceptional performance at every level. They also save you money with every page you print and help keep the environment greener. Toner-Save Mode reduces toner usage by up to 30 % for further cost savings.

Reduced energy consumption

EA (Emulsion Aggregation) -Eco toner is a newly developed special toner that allows fusing to paper at a much lower temperature. This allows you to save up to 20 % in power consumption and reduce CO_2 emissions by up to 35 % as compared to conventional Fuji Xerox toners. That means bigger cost savings for you and a greener planet for us all.

EA-Eco toner is completely oil-free with the sharp-melting characteristics that provide the right gloss even on different types of paper.

Overall, EA-Eco toner reduces power consumption by approximately 40 % in glossy mode. Only genuine Fuji Xerox EA-Eco toner offers you this energy saving performance.

Trouble free and user friendly
With few moving parts, your printer requires very little maintenance and has few replacement needs. The only thing you need to change is the toner cartridge and that just takes a second or two!

Fast and smart
- Fuji Xerox technology understands the pressures of business and provides reliable and fast printing capability to enhance your workflow.
- High-speed colour printouts at up to 12ppm.
- Huge memory of 64 MB for DocuPrint CP105 b, 128MB for DocuPrint CP205 / CP205 w and DocuPrint CM205 b / CM205 f / CM205 fw lets you handle more jobs faster.

Award-winning technology

Fuji Xerox has raised the benchmark for high-quality, colour printing with a range of award-winning breakthroughs in printer technology that not only deliver eye-catching results, but are fast and simple to use, easy to maintain and save you money with every print out.

Quietly brilliant

Fuji Xerox's award-winning S-LED (Self-Scanning Light Emitting Diode) and DELCIS (Digitally-Enhanced Lighting Control Imaging System) control technology ensure that you get accurate, high-imaging quality at 1200x2400 dpi. Small and intelligent S-LED chips with fewer moving parts give you an ultra-quiet operation, reduced energy usage, a high level of operational reliability and a sleek compact design.

DocuPrint CP105 b / CP205 / CP205 w / CM205 b / CM205 f / CM205 fw
Best resolution in its class at 1200 x 2400 dpi

Other brands in its class only offer up to 600 x 600 dpi

Easy to use

Intuitive LCD screen on the DocuPrint CM205 series, providing a large 4-line backlit LCD display.

Direct scan to USB memory allows you to store scanned data easily and quickly without the need of a PC.

Product Overview

DocuPrint CP105 b
- Personal Colour Printer

DocuPrint CP205
- Network Colour Printer

DocuPrint CP205 w
- Wireless Network Colour Printer

High-speed colour correction

IReCT (Image Registration Control Technology) is a newly developed digital image registration control technology that offers ultra high precision of 2,400 dpi colour print out, by which image misalignments will be accurately corrected through a digital process.

Brilliant highlights

MACS (Micro Accurate Control Screen) optimises the shape of screen elements in accordance with the image density of the area. This technology offers reproduction of smooth gradations and beautiful highlights.

Razor-sharp images

IE (Image Enhancement) Technology+ improves flexibility in the number of screen lines, shapes and angles by scanning in two directions on a finer matrix to give you razor-sharp images, text and graphics.

+ Applicable to CP105 / CP205 / CP205 w only

Wireless connectivity* allows convenient and hassle-free printing.

*Applicable to CP205 w and CM205 fw only
