► Light-weight 6-inch Roll-type Photo Printer

Weighing less than 14kg, the HiTi P510S is the 6-inch standalone roll-type photo printer combining light-weight, high printing speed, and high media capacity in one product. Designed for professional users, the P510S gives you the flexibility to do on-location photo finishing.

13.6kg
(30 lbs)

► Standalone Capability and User-Friendly Workflow

Standalone Operation (No Computer Required)

Utilizing a graphic user interface on a 3.6-inch LCD, it is very easy to operate HiTi P510S printer without the need of a computer.

Customized Photo E-Frame

HiTi P510S enables business owners freely to add customized photo e-frame from the backstage system to provide value-added holiday or event prints for customers.

Useful Storage Design

With a built-in storage device, P510S is able to store several photo e-Frame and ID formats to satisfy varied printing needs.

► Printer Connectivity

Through an USB cable, HiTi P510S can be connected to HiTi P510K Mini Photo Kiosk and as its slave printer. This function can be enabled simply by setting up the backstage system, and users are able to print photo in various sizes without constantly changing the consumables. Extending your photo printing business more flexible and comprehensive is powered by the solution.

HiTi P510S Photo Printer

► Practical Software/Utilities

eFrame Converter

eFrame Converter is a dedicated utility/tool for users to convert TIFF files into HiTi designated eFrame formats. You design the eFrame in PhotoShop, then use eFrame Converter to change the TIFF design into the specific file formats the HiTi P510S printer can read.

EventDésirée Deluxe

Designed for event business, the software is especially for users who want to print a large quantity of photos under limited time period. By applying EventDésirée Deluxe, it is so much easier to convert JPEG files into HiTi designated event template formats and make great quantity of photo printing.

ID Creator

Designed for Passport/ID photo users. You can easily design multiple ID formats in a few simple steps and then load them to the printer for further use.

IDQuickDésirée

PC-based software gives users the ability to print Passport/ID photos.

► World Leading Output Quality

10-bit Color Engine

By adding an all-new OEE II image processor, HiTi is leading the industry in providing 10-bit deep color performance and unparalleled RGB-Level.

10-bit processing = 1,024
 R 1,024 x G 1,024 x B 1,024 = 1 Billion Color

Powered by HiTi Color

HiTi Color Technology, a HiTi exclusive color management system, has won 8 DIMA awards and is acclaimed by photographic professionals from around the world.

► Durable and Convenient Design

Improved Dust-proof Housing

The Thermal Printing Head of the P510S printer is protected by an integrated dust cover, efficiently reducing contamination.

Lower Power Consumption

HiTi P510S photo printer delivers industry-leading performance and consumes less power. The total power consumption of HiTi P510S is about 300W, and less than 20W as printer is idling.

Easy Replacement of Consumables

The front loading design of the HiTi P510S printer allows for easy access to the ribbon and paper roll resulting in easy and efficient maintenance procedures.

User-Friendly Workflow

2-Click to Print

With less clicks and intuitive user-interface design, printing a photo can be a much easier and faster experience.

Hot Key Design for Switching the Printing Modes

P510S offers 3 different printing modes specially designed for making Event Photo, ID Photo and Personalized Photo. With hot key design, it is easy and convenient to switch the printing modes.

Prime Quality in Matte Finish*

Apart from glossy photos, HiTi P510S is capable of matte finish. No media change required!

Varied Printing Formats in 1Machine

HiTi P510S offers users the versatility to print various photo sizes, including 4"x6", 4"x6"-2UP, 5"x7", 5"x7"-2UP, 6"x8", 6"x9", and 6"x9"-2UP.**

* For current HiTi 5 series' users, the latest firmware and driver should be updated to the printer before starting.
 ** 2UP function should be operated from printer driver by PC or notebook.
